

QUALITY POLICY

PARATORI S.P.A.

Paratori S.P.A., located in Olgiate Molgora, aims to be a significant international player in the field of shipping, transportation, warehousing, and third-party logistics services.

In order to remain competitive in such a challenging and competitive market, the company is committed to the quality of its services, which are provided to hundreds of clients who entrust us daily with the handling of goods involved in their production cycles.

Through relationships with major international clients, the company is continuously encouraged to define its Quality Management System according to recognized international standards.

The certification process, in addition to responding to these requests and enhancing the company's commercial reputation, provides an important opportunity to more clearly define roles, procedures, objectives, and measurable results in accordance with the desired standards of effectiveness for the resources employed.

From this perspective, the System documentation is intended to be an important tool available to the entire Organization to help consolidate, as well as to promote growth and development, with particular attention to the Analysis of the Context in which it operates and the Involved Parties, and to the formalization and Assessment of Risks that affect the corporate life of this Organization.

The Organization introduces a systematic approach to risk at every corporate level, aimed at making the organization proactive rather than reactive, in full compliance with current regulations.

The objective is, therefore, to build, through self-analysis, a solid base of risk knowledge, aimed at eliminating (or reducing) undesirable effects and, where appropriate, identifying new opportunities for improvement.

The Management is therefore convinced of the need to pursue this approach, since customer satisfaction and continuous improvement, which are PARATORI S.P.A.'s primary objectives, can only be achieved if the Organization has the ability to objectively understand and analyse its own operations, those of the parties involved (internal or external to the organization), and the context in which it operates (and the risks associated with it), acting accordingly.

To do this, the commitment of all parties involved is necessary.

Everyone must be fully aware of their role and the responsibility of their work, which must be aimed at minimizing risks and maximizing results.

With this in mind, Management is constantly committed to guiding activities, promoting constant compliance with the requirements defined by the customer and stakeholders, as well as the applicable mandatory requirements.

With the preparation and dissemination of this document, General Management intends to promote a culture of quality through the commitment of all those who work "in and for" PARATORI S.P.A. so that, each with their own contribution, all can be protagonists and actors of a satisfactory result.

Olgiate Molgora, May 20, 2022

Chairman of the Board of Directors
